DATA ROAMING NORTH SEA

Her er det jeg nevnte om "piratnettet" til Telenor. Hvis telefonen ligger ombord med roaming på så blir det fort dyrt når email og sosiale media begynner å oppdatere av seg selv. Kanskje verdt et hint i neste års info? Det er jo mange som har roaming på nå som det er forholdsvis billig i EU.

Takk ellers for ypperlig arrangement.

Mvh
